Experience

JetBrains / Senior Software Engineer

JUL 2022 - PRESENT / BERLIN, GERMANY

I work on libraries, frameworks, and SDKs for Kotlin AI, building developer-facing APIs and ecosystem infrastructure that make AI applications in Kotlin simpler to develop.

JetBrains / Software Developer

SEPT 2019 - JUL 2022 / SAINT PETERSBURG, RUSSIA

I built Kotlin libraries for data science, covering numerical computing, data processing, and visualisation. I designed and maintained Multik, a library for multidimensional arrays with native OpenBLAS/LAPACK integration, and contributed to Kotlin DataFrame and Kandy.

JetBrains / Software Engineer Intern

JUL 2019 - AUG 2019 / SAINT PETERSBURG, RUSSIA

I built a Kotlin library for NumPy interoperability, creating Kotlin bindings to Python's NumPy with low-level integration across JNI, C, CPython, and the Python interpreter.

Speech Technology Center / Java Developer

APR 2018 - JUN 2019 / SAINT PETERSBURG, RUSSIA

I built and maintained internal services and Jira plugins for company-wide business workflows, working across backend, frontend, database, and integrations with Jira, CRM, and accounting platforms.

JetBrains / Software Engineer Intern

OCT 2017 - DEC 2017 / SAINT PETERSBURG, RUSSIA

I deployed and benchmarked big-data and analytics components on AWS, including PostgreSQL, Redshift, Athena, and ClickHouse, using Docker, Terraform, and Yandex.Tank for load testing.

Sberbank - Technology / Java/Kotlin Developer

JUL 2017 - SEPT 2017 / MOSCOW, RUSSIA

I worked on a high-load fraud-detection system for card transactions, helping introduce Kotlin into a Java codebase with Spring, Ignite, Spark, Drools, and Kafka.

Education

ITMO University

2018 - 2020 / SAINT PETERSBURG, RUSSIA

Master's degree in Software Development.

Saint Petersburg State University

2013 - 2018 / SAINT PETERSBURG, RUSSIA

Bachelor of Science in Nonlinear Dynamics, Computer Science and Control.
